

Olav Omtveit

Objective.

As a person I am extremely passionate about technology and media, and I am very eager to learn more about how it works, first-hand. I have loved the digital art form, such as games and webdesign my whole life. And over this time my passion and interest has only increased. I am now seeking a role in the industry where I can fully take advantage of everything I've learned, and where I can develop my skills and knowledge even more.

Attributes.

Over the years I have developed a great work ethic and I always put my best efforts into the job at hand, no matter what it is. I have a great understanding of the fundamentals of web design and development, and am ready to learn even more. I know I can be an asset to any company that would take me on, if given the chance. Group projects are something I have always thrived in. I can adapt and fit well into any group, and I am willing to step up and take responsibility if things get tough.

Education.

- **Front-End Development, Noroff, School of Technology, 2019-2021.**
The front-end course at noroff taught me so much about the development of web apps and sites. I am used to work with many different frameworks, and have used many other web tools (such as heroku for instance) to better my projects.
- **Games Design: Story Development, University of East London, 2014-2017.**
During my time at UEL I was able to study a lifelong passion of mine. I learned a lot during my 3 years there, and I studied most aspects of games design. I gained experience in developing games in Unity with C#, 3D modelling, story writing, and how to make the game mechanics work with the story. I also learned a lot about structure, workflow and time management, and I believe this is crucial for any career.

Work Experience.

- **Office manager, Countryfestivalen/Seljordfestivalen, Seljord, Norway (July 2011-July 2019)**
I have worked at two festivals, one being the biggest country festival in Northern Europe, as an office manager handling the finances and every sales location of the festivals. This job has given me a lot of respect for the position of a manager, and the large amount of responsibility that came with it. I worked with a lot of different people, both customers and co-workers, which has helped me grow and learn a great deal, namely the ability to adapt and overcome challenges under pressure.
- **Waiter, Nydalen Bryggeri og Spiseri, Oslo, Norway (August 2017 - Current)**
I work as a waiter at one of the most popular restaurants/bars in Oslo. Nydalen's focus in the bar are boardgames, shuffleboard, darts, and arcade machines. Working at Nydalen has

taught me how to deal with a lot of stress and pressure, as well as having to work well with a big group of co-workers to keep the bar's reputation intact.

- **For more experience or references, feel free to ask!**

Skills.

- Fluent in English.
- Work well in groups.
- High work morale.
- Responsible.
- Trustworthy.
- Highly motivated to start my career.
- Creative.
- Easy to get to know.
- Detail and Quality oriented.
- Good player skills.
- Fast learner.
